

# Project 13

Including content to Lesson 29

## 1. PREPARE

Browse for your image of the Tiger - Duplicate and Resize by 35%

Sharpen

Also open the mask and corners - duplicate and close the originals.

## 2. MASK LAYER

Right click on the Background layer and Promote Background to Layer

Load the colour #213416 into your foreground box - this is a dark green

Add a New Raster Layer and Flood Fill this layer with the Dark Green

Go to Mask from Image (Icon on Tool Bar) OR Layers > New Mask Layer > From Image

Locate the Mask you have opened and select it

- Source Luminance = Selected

- Invert mask data = Ticked

Click OK

Activate the magic wand with the following settings:-

- Mode - Replace
- Match Mode - RGB Value
- Tolerance - 0
- Use all Layers - UNTICKED

- Contiguous - UNTICKED
- Feather - 0
- Anti-Alias - TICKED
- Outside Selected

Click somewhere in the green area

Activate the Green coloured layer in the Layer palette

Go to Blinds

- Width = 5
- Opacity = 15
- Colour = #808080 (the dark grey in the Recent Colours window - Right click to bring up the window)

- Horizontal = TICKED
- Light from left/top = TICKED

Click OK

Repeat the Blinds, but UNTICK the horizontal Box

Apply an Inner Bevel

- Bevel - #2
- Width - 5
- Smoothness - 0
- Depth - 1
- Ambience - 82

- Shininess - 42
- Colour - White
- Angle - 315
- Intensity - 41
- Elevation - 20

Click OK

Merge Layer Group

Apply a Drop Shadow.

- Vertical = 3
- Horizontal = 3
- Opacity = 75
- Blur = 5
- Colour = Black
- Shadow on new layer = Unticked

Click OK

Repeat the Drop Shadow but change the settings to

- Vertical = -1
- Horizontal = -1
- Opacity = 75
- Blur = 2
- Colour = LIGHTER Grey in Recent Colours box (Right Click to bring it up)
- Shadow on new layer = Unticked

Click OK

Deselect

### 3. BORDERS

Add a New Raster Layer

Select All - Ctrl+A

Then Contract the Selection by 8 pixels - Click OK

Select Selection Borders (Icon looks like blue circle with black dots around it)

OR Selections > Modify > Select Selection Borders

- Inside = Selected
- Border Width = 8
- Anti-alias = Ticked

Click OK

Locate the D\_gold fold pattern and load into the Foreground box with the settings of:-

- Angle = 0
- Scale = 50

Click OK

Flood Fill the selected Border with this gold Pattern

Apply an Inner Bevel

- Bevel - #3
- Width - 20
- Smoothness - 10
- Depth - 70
- Ambience - 0
- Shininess - 10
- Colour - White
- Angle - 225
- Intensity - 40
- Elevation - 40

Click OK

Deselect - Ctrl+D

Add Border of 3 pixels in any colour not in the image

Activate the Magic Wand (same settings as before)

Click on this new border

Flood fill with the Gold Pattern

Apply an Inner Bevel

- Bevel - #2
- Width - 5
- Smoothness - 0
- Depth - 1
- Ambience - 82
- Shininess - 42
- Colour - White
- Angle - 315
- Intensity - 41
- Elevation - 20

Click OK

Deselct

## 4. CORNERS

Bring up the corners

Copy Raster Layer 8 and Paste it as a New Layer

Activate the Move Tool Move it to the bottom Left corner and place it between the two borders

Duplicate that corner

Mirror Horizontal

Close the background layer

Merge Visible

Duplicate those corners

Mirror Vertical

Merge Visible

Open the background layer

Paste As New Layer (the corner is still in memory)

Activate the Freehand Selection

- Selection Type = Freehand
- Mode = Replace
- Feather = 0
- Smoothing = 0
- Anti-Alias = Ticked

Select around 5 of the diamonds - The corner one plus 2 more on either side of the corner

Invert the Selection

Hit the Delete key on the keyboard

Deselect

With the Move Tool, shift it to inside the thicker border in the bottom Left Corner

Duplicate that corner

Mirror Horizontal

Close the background layer & the Merged Layer (the first set of corners)

Merge Visible

Duplicate that merged layer

Mirror Vertical

Merge Visible

Open the background layer & the Merged Layer

Merge All (Flatten)

Save this as YourName-Project13a

\*\*\*\*\*

Now Create another one, with your choices of Images, Effects, & Colours to match

Save this as YourName-Project12b

### ***Project 13 REQUIREMENTS :-***

1. Tiger Image - exactly as mine - YourName-Project13a
